Dear Mr. Jordan,

I hope you are well. I am in receipt of your February 4, 2009 letter informing the Knollenberg for Congress Committee of additional information considered a supplement to the original complaint. The case number is MUR 6152. Thank you for passing along.

Having reviewed this additional information, the position of the Knollenberg for Congress Committee remains the same as expressed in my January 7, 2009 letter.

The letter alleged to have been sent in the original and supplemental complaint was not authorized by the Knollenberg for Congress Committee. The letter was not authorized by the candidate or the candidate's committee.

Accordingly, I am of the understanding that the complaint, including the supplemental information you enclosed with your February 4, 2009 letter, does not apply to the Knollenberg for Congress Committee as this was not a communication which came from the campaign committee and/or candidate, was paid for by the campaign committee and/or candidate or was authorized by the campaign committee and/or candidate.

Should you require further information, have questions or need to reach me please feel free to do so as below. I have mailed this letter to your attention at the above address on February 9, 2009 certified mail requiring a signature for receipt.

Thank you very much. Be Well.
